EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on October 13, 2005, Thomas D. Kohler requested an extension of time for 2 MONTH(S) and authorized the Director to charge Deposit Account No. 50-0310 the required fee of \$330.00 (\$450.00 - \$120.00) for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the abstract:

line 9, inserted --non-elastic-- following "A", changed the first occurrence of "and" to --between-- and inserted --a-- following the last occurrence of "and"

In the claims:

claim 1,

line 8, deleted "for" and inserted a comma following the first occurrence of "arm"
changed line 12 to --a non-elastic stop bar slidably disposed in said glass rail between the two sliders and having a longitudinal axis generally parallel to a longitudinal axis of said glass rail, said stop bar engaging said sliders when said regulator assembly is in an open position; and--

Art Unit: 3634

changed lines 15-18 to --when said regulator assembly is in said open position, said glass rail and said support rail are spaced apart by a first distance and when said regulator assembly is in a closed position, said glass rail and said support rail are spaced apart by a second distance which is less than said first distance.--

claim 5,

line 3, changed "one slider" to --said one of said sliders--

line 4, changed "formed at" to --connected to--

line 5, changed "the slider" to --said one of the sliders--

claim 6,

line 2, inserted --of the-- following "one"

line 3, changed "slider" to --sliders--

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record, absent applicant's own disclosure, fails to teach the entire combination of elements set forth in the claimed invention. Specifically, the prior art of record fails to teach a non-elastic stop bar slidably disposed in said glass rail between the two sliders and having a longitudinal axis generally parallel to a longitudinal axis of said glass rail, said stop bar engaging said sliders when said regulator assembly is in an open position and when said regulator assembly is in said open position, said glass rail and said

support rail are spaced apart by a first distance and when said regulator assembly is in a closed position, said glass rail and said support rail are spaced apart by a second distance which is less than said first distance. See claim 1, lines 12 and 15-18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory J. Strimbu whose telephone number is 571-272-6836. The examiner can normally be reached on Monday through Friday 8:00 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Chilcot can be reached on 571-272-6777. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
